

General Specification for Catering Equipment Installation 2007 Edition

The 2007 edition of the General Specification for Catering Equipment Installation comprises considerable updating and revisions to the 2001 edition.

In line with the global consciousness for our environment, the new specification has been re-written with sustainability as the key objective.

The updating of specification is a continuous process. With the benefit of information technology, electronic version of this new 2007 edition can be kept up-to-date and may be viewed on the ArchSD Homepage.

In view of the revisions and new additions, there will be an introductory period of 3 months whereby the General Specification for Catering Equipment Installation 2001 Edition will still be the Contractual Document, whilst the new General Specification for Catering Equipment Installation 2007 Edition may be viewed in parallel in preparation for full implementation by 17 December 2007.

- **Hence, for tenders to be invited on or after 17 December 2007, General Specification for Catering Equipment Installation 2007 Edition shall be used.**
- **Existing contracts (including contracts using previous editions tendered before 17 December 2007) would not be affected.**
