## APPROVAL FOR USE OF THE DISPUTE RESOLUTION ADVISOR (DRAd) SYSTEM AND THE DRAd LISTING PROCEDURES

### 1.1 INTRODUCTION

#### 1.1.1 General

This Handbook provides the procedures to be followed for the Dispute Resolution Advisor (DRAd) System.

For the purpose of this Handbook, the following post designations intend to reflect the contract administrative frameworks of Architectural Services Department (ArchSD) works contracts adopting a non design and build procurement approach administered by in-house QS:-

<u>Post</u>	<u>Abbreviation</u>
Project Quantity Surveyor	PQS
Design Team Leader	DTL
Chief Architect	CA

Reference should also be made to the table appended at **Appendix 1.6** for equivalent post designations for out-sourced works contracts and/or works contracts adopting Design and Build procurement approach.

#### 1.1.2 Approval to Use the DRAd System

For ArchSD works contracts, consent to use the DRAd system shall be obtained by the DTL from the Project Director. The adoption of the DRAd system must be approved by the Project Director under the delegated authority of Director of Architectural Services prior to any decision to incorporate DRAd provisions within a construction contract.

### **1.1.3 Use of the DRAd System**

1.1.3.1 Before the DRAd system may be used the requirement must be established.

1.1.3.2 The requirement may be as a result of the following minimum mandatory criteria.

(a) the nature of work is not simple and disputes are likely to arise during the course of contract; and

(b) the contract value should be over HK\$700M, or over HK\$100M for exceptional case where there is demonstrable benefit to adopt DRAd System.

[Note: The revised threshold contract value (\$700M) for contracts adopting DRAd System shall apply to contracts for which tenders are invited on or after 15 March 2021.]

1.1.3.3 The adoption of the DRAd System, in itself, is not mandatory. In instances of doubt the Project Director should seek the advice of the Assistant Director (Quantity Surveying) (AD(QS)).

1.1.3.4 Subject to any transfer of costs ordered by an arbitrator under the Special Conditions of Contract in Part 5 of this Handbook governing the DRAd system, the Employer and the Contractor shall each pay 50% of the DRAd's costs, fees and expenses in respect of the DRAd services.

### **1.1.4 List Management**

1.1.4.1 An informal (i.e. not gazetted) list of DRAdS, which is updated annually, is managed by the Joint Management Committee (JMC). An up-to-date list is held by the Secretary of the JMC.

1.1.4.2 An updating exercise of the list of DRAdS will be conducted, normally on annual basis, in which all the DRAdS are required to submit returns on their updated personal details as in **Appendix 1.5**. Those DRAdS who do not submit their returns would be assumed as not available for undertaking any further DRAd assignment and would therefore be deactivated from the List of DRAdS until an application for reinstatement is received from the DRAd.

### **1.1.5 Selection and Appointment**

Procedures for selection and appointment of DRAd under the works contract are given in PART 2 herein.

### **1.1.6 Performance Reporting**

A reporting and review system on DRAd's performance is managed by the JMC to ensure that all DRAd consultancy assignments meet the specified performance criteria. Details are given in PART 3 herein.

## **1.2 PROCEDURES FOR INCLUSION ON THE LIST**

### **1.2.1 DRAd Listing**

1.2.1.1 Notification of interest for inclusion on the DRAd list may be received by either ArchSD or HKCA. Only applications from individuals and not from companies/firms will be considered. All applications shall thereafter be processed by ArchSD and finally be approved by the JMC.

1.2.1.2 The applicant shall complete and submit a standard application form at **Appendix 1.1, Proforma No. 1**.

1.2.1.3 Upon receipt of the candidate's completed application form, the Secretary, JMC should assess the application according to the admission criteria as set out in **Appendix 1.3** and submit the recommendation based on the Summary of Assessment in **Appendix 1.4** at the next JMC meeting for its consideration and advice on the suitability of the applicant for inclusion on the list.

1.2.1.4 ArchSD shall convene a JMC meeting comprising representatives of ArchSD, HKCA, a civil engineering stream Works Department. A representative of Housing Department shall be in attendance. Normally, Assistant Director (Quantity Surveying) will represent ArchSD and chair the JMC meeting. Usually, JMC meetings would be held quarterly.

1.2.1.5 The terms of reference of the JMC are :-

- (a) to keep under review the procedures for the selection, appointment and administration of DRAd;
- (b) to manage the list of DRAd; and
- (c) to review the performance of DRAd.

<u>Membership</u>	<u>Role</u>

- 1.2.1.7 The Secretary, JMC informs the applicant of the result and issues an updated list to HKCA.
- 1.2.1.8 A flowchart of the DRAd Listing Procedures is at **Appendix 1.2.**

### **1.3 PROCEDURES FOR REMOVAL FROM THE LIST**

#### **1.3.1 Removal**

- 1.3.1.2 Removal from the list shall follow the procedures set out in PART 3 of this Handbook, Paragraph 3.6.4.6.

- 2.3.4 Technical and fee submissions from each candidate shall include an appreciation of their anticipation of potential areas of dispute that might arise under the specific contract as well as their level of remuneration. Two copies of the technical and fee proposals are to be submitted simultaneously, one for each party to the works contract.

## **2.4 ASSESSMENT AND SELECTION**

ArchSD and the Contractor each separately assess the submissions from the nominated candidates and prepare their own prioritized list of available preferred candidates. ArchSD's assessment and selection procedures are set out in **Appendix 2.4**.

## **2.5 APPOINTMENT**

- 2.5.1 Candidate selected on the basis of the highest combined priority will be asked by PQS to confirm availability for appointment. A standard letter is attached at **Appendix 2.5, Proforma No. 1**.
- 2.5.2 The DRAd to be appointed shall only undertake a maximum of four DRAd assignments in the HKSARG Departments i.e. ArchSD, CEDD, DSD, HyD, EMSD, WSD, SWD and EPD (excluding Housing Department) at any one time, PQS shall check the "DRAd Current Assignment Declaration Form" submitted by the DRAd before the execution of the DRAd Agreement.\*
- 2.5.3 The Dispute Resolution Advisor (DRAd) Agreement is drawn-up by ArchSD and signed by the three parties within the stipulated period.

2. Scope of the appointment

In addition, if a lump sum is quoted for services rendered including supporting service, the equivalent hourly charge rate must be given.

The DRAd must clearly indicate on the Schedule of Fees whether there is/is not an element of inflation applicable to his/her remuneration. If inflation is applicable, the related items must be completed in accordance with the guidance notes provided with the Schedule of Fees.

4. Relevant Project Experience

The DRAd shall provide with the submission full details of his/her relevant construction experience which is similar in nature and/or scale to the contract for which DRAd is to be employed.

(Note: For the avoidance of doubt, the experience relating to dispute resolution would not be taken into account in the section of “Relevant Project Experience”.)

5. Staffing

**Dispute Resolution Advisor (DRAd)  
ArchSD Assessment and Selection Procedures**

**Submissions**

1. Having confirmed their agreement to be considered for the DRAd appointment, the five DRAd's, nominated by the Contractor are to be invited to provide technical and fee submissions. Submissions are to be returned simultaneously to ArchSD and the Contractor.

**Assessment by ArchSD of Technical Submissions**

2. ArchSD will open the technical part of the submissions only initially. The opening of the submissions is undertaken by AD(QS) in the presence of the DTL and the PQS.
3. An assessment panel shall be set up and chaired by a D1 officer or above for ArchSD projects, or a D2 officer or above for other works departments projects. The chairperson is responsible to oversee the whole technical assessment process and endorse the final technical marks before submission seeking approval for fee opening. Therefore, the chairperson should preferably be non-marking. The assessment of the technical submissions shall be undertaken by individual member including DTL, SQS and TS/1. Marks will be allocated in accordance with **Appendix 2.4, Proforma No. 1**.
4. The marks of the three members of the assessment panel will then be aggregated by DTL to establish the total marks received by each of the candidates. At this stage if it is apparent that any of the submissions do not appear to be suitable from a technical aspect (i.e. scored a mark that equates to less than 50%) then their fee proposal will not be considered and will be returned to the candidate unopened.

**Assessment by ArchSD of Fee Submissions**

5. The fee submissions of the prospective DRAd's whose technical submissions have been deemed suitable will then be opened as in 2 above. The PQS will produce an analysis of the fee submissions in order to confirm, and/or establish lump sums for comparative purposes in the assessment process.

**Ranking of Submissions by ArchSD**

6. The technical and fee submissions will then be collated, to establish the final list in descending order. The weighting of the two elements of the proposal will be technical 75% and fee 25%

The first ranked candidate is then compared with the second ranked candidate in accordance with the following worked example :-

Candidate	Technical Scores	*Notional Total Fee (\$100,000.00)	Comparison	
			Technical	Fee
A	87	6	$(87-79)/79 = 10.1\%$	$(6-5)/5 = 20\%$
B	79	5		

\*Note : See DRAd’s Schedule of Fee

It is seen that A is technically 10.1% better than B, but 20% less advantageous than B on fee. The weighted technical advantage of A over B is  $0.75 \times 10.1\%$  i.e. 7.68%. The weighted fee disadvantage of A compared to B is  $0.25 \times 20\%$  i.e. 5.00%. The winner is therefore A.

The winner is then compared with the 3rd candidate in a similar manner, etc.

- The assessment of prospective DRAd’s is then endorsed by AD(QS), listed in descending order of acceptability and the typed and endorsed list placed by AD(QS) in a sealed envelope marked :-

" Architectural Services Department  
 Combined Technical and Fee Assessment Result of Dispute Resolution Advisor Proposal  
 Contract No : \_\_\_\_\_  
 Contract Title : \_\_\_\_\_ "

**Final Mutual Selection and Appointment**

- The sealed envelope is held by AD(QS).
- The ArchSD’s and the Contractor’s envelopes are then opened in the presence of the parties and the names matched for selection of candidate on the basis of the highest combined priority; number one being the highest priority, in accordance with the following worked example:-

Candidate	Acceptability Ranking No.		(1) + (2)	*Combined Priority
	by ArchSD (1)*	by Contractor (2)*		
A	1	4	5	2
B	2	1	3	1
C	3	3	6	3
D	4	5	9	5
E	5	2	7	4

\* Note : No.1 being the highest priority

Candidate B with the highest combined priority shall be selected as the DRAd.

10. In the event that there are two or more candidates with the same highest combined priority, the Contractor shall decide who shall be appointed among those candidates with the same highest combined priority.
11. In the event that the candidate with the highest combined priority for any reason cannot or will not take up the DRAd position for the Contract or is considered and proposed by the Employer and agreed by the Contractor to be inappropriate or ineligible to take up the DRAd position for the Contract, then the candidate with the next highest combined priority in order of preference shall be approached for appointment. The Contractor shall not unreasonably disagree with the Employer's proposal. This process shall go on as the circumstances may so require until a DRAd is appointed.
12. A meeting is then arranged with the Contractor, DRAd and the 'Employer' to execute the Dispute Resolution Advisor (DRAd) Agreement. The Agreement shall be signed by the Project Director on behalf of the 'Employer'. The standard document is at **Appendix 2.4, Proforma No. 2.**

If either the Employer or the Contractor fails to pay any amount due to the DRAd within 7 days after the due date, then whichever of them is not in default shall pay the amount owing to the DRAd. ## PERFORMANCE REPORTING SYSTEM

## PART 3

### PERFORMANCE REPORTING SYSTEM

#### 3.1 GENERAL

- 3.1.1 The performance of the DRAd shall be regularly assessed and an appraisal report made to Joint Management Committee (JMC) by the Chief Architect responsible for the administration of the Contract (CA). A central record shall be kept by the Secretary of the JMC.
- 3.1.2 In cases of unsatisfactory performance, action shall be taken in accordance with paragraphs 3.6.1 to 3.6.4.

#### 3.2 REPORT TO JMC

- 3.2.1 The Secretary of the JMC shall be responsible for the administration of the reporting system including the issue of the necessary performance report forms. The completed performance reports shall be forwarded to the Secretary of the JMC at least 7 working days prior to the next JMC meeting.
- 3.2.2 A separate report form shall be completed for all agreements, including extensions and supplements to agreements where the service provided by the DRAd is separable and distinguishable from that provided in the original agreement.
- 3.2.3 Both Contractor and DRAd shall be made aware of the assessed DRAd's performance. To increase transparency on performance reporting, the CA shall send all parts of the duly completed performance report to the Contractor and DRAd once the report has been completed. The standard letters to Contractor and DRAd enclosing the Interim Report and Final Report are attached at **Appendix 3.3, Proforma Nos. 1 and 2.**

#### 3.3 FREQUENCY OF REPORTS

Interim Reports on the DRAd's performance are required to be submitted on a quarterly basis, covering the period from start to completion or termination of the DRAd agreement. The reporting periods for such Interim Reports end on the last day of March, June, September and December. Where the completion or termination of

the DRAd agreement falls within the time of the periodic report then both the last Interim Report and the Final Report are required.

### **3.4 REPORTING OFFICERS**

- 3.4.1 The preparation of reports shall be by the DTL as Reporting Officer, in consultation with subordinate staff and the report shall be endorsed by the CA.
- 3.4.2 Reports submitted by the Contractor shall be reported by the Contractor's site representative and endorsed by the Contractor's project manager.

### **3.5 REPORT FORMAT AND APPRAISAL CRITERIA**

- 3.5.1 The report format and the criteria to be used in appraising the performance of the DRAd shall be in accordance with the procedures, standard reporting forms and guidance notes given in **Appendices 3.1 and 3.2**. Due to the wide variety of duties undertaken by the DRAd, the Reporting Officer may wish to comment on other aspects not covered on the standard form. The space provided under "General Comments" is for such an occasion. The overall assessment made on the DRAd shall be appropriate to the gradings given, i.e. between A (outstanding) and F (unsatisfactory). Whilst it is accepted that the overall assessment is subjective, the Reporting Officer's and CA's gradings shall reflect the strengths and weaknesses of the different aspect of performance.
- 3.5.2 Part A of the Performance Report (**Appendix 3.2, Proforma Nos. 1 and 2**) will be completed by the ArchSD Project Officer, while Part B will be completed by the Contractor. For administrative convenience, the ArchSD Project Officer is responsible for issuing Part B to the Contractor and submitting parts A and B to the Secretary, JMC in accordance with para. 3.2.1.
- 3.5.3 Section 4 "Overall Assessment" of the DRAd's performance is to be completed by the CA based on Part A and Part B of the Performance Report. However, in the event of substantially difference on the DRAd's performance (i.e. when one party rates the overall assessment of the DRAd's performance as "Acceptable" while the other party rates it as "Adverse" in Part A and Part B of the Performance Report) between ArchSD and the Contractor, the JMC will, in consultation with ArchSD and/or the Contractor as appropriate, make an "Overall

Assessment” of the DRAd’s performance for the report in question.

### **3.6 ACTION WHERE PERFORMANCE IS UNSATISFACTORY**

- 3.6.1 As soon as it becomes apparent that, in the opinion of the Reporting Officer, the performance of the DRAd is less than satisfactory, the Employer shall, in conjunction with the Contractor, ensure that the situation is brought to the attention of the DRAd.
- 3.6.2 Poor performance on the part of a DRAd may indicate a need for closer liaison. If an increased level of liaison does not result in a satisfactory improvement in performance, then the Employer, in conjunction with the Contractor, shall write to the DRAd. In certain circumstances, it may be appropriate for the Employer and the Contractor to discuss the reports with the DRAd to agree where performance might be improved. All parties shall attend such meetings. All communication regarding poor performance shall be confirmed in writing to the DRAd.
- 3.6.3 In case of continued poor performance, the Reporting Officer and the Contractor shall reflect the DRAd’s poor performance in the performance report with indication, where applicable, that the DRAd has been informed of his unsatisfactory performance in a particular aspect(s), and the nature of the response received from the DRAd. The Reporting Officer should state in the General Comments of the performance report, a summary of the correspondence exchanged, and of any discussions that have taken place with the DRAd regarding his poor performance.
- 3.6.4 As the circumstances of assignments vary, the following action to be taken following unsatisfactory performance reports are not mandatory. If the following action is not taken, however, reasons are to be given on file.
  - 3.6.4.1 As soon as it becomes apparent that a DRAd’s performance is not up to the required standard, the Reporting Officer should bring it to the attention of the Employer and the Contractor, who should jointly issue a Warning Letter, highlighting the areas of concern and copy it to the Contractor and Secretary of the JMC.

#### 3.6.4.2 1st Unsatisfactory Report

Warning Letter from the Chairman of the JMC highlighting the areas of concern. The Secretary of the JMC should also refer the matter for discussion at the next JMC meeting.

Interview - The JMC may wish to invite a DRAd to attend an interview to discuss problem areas. The Contractor must also be invited to attend.

In both instances a DRAd should be made aware that continued poor performance on the assignment may result in suspension or deletion from the list.

#### 3.6.4.3 Subsequent Unsatisfactory Reports

Further Warning Letters, Interviews as deemed necessary by the JMC. Suspension or Deletion from the list requires the approval of the JMC.

#### 3.6.4.4 Discharge of the DRAd as a result of unsatisfactory performance

If the DRAd is under written notice of unsatisfactory performance and after interviews has failed to improve the execution of the DRAd services in specified areas, immediate steps shall be taken by the CA to secure the discharge of the DRAd in accordance with the DRAd's employment Agreement.

#### 3.6.4.5 Procedures for the discharge of the DRAd

The DRAd can be discharged at any time by a joint written notice from the Employer and Contractor.

The Employer or Contractor may discharge the DRAd unilaterally at any time after the first six months of his tenure as DRAd. If either the Employer or the Contractor wish to do so then the one shall be required in good faith with the other regarding the intentions and reasons of the discharge, followed by a written notice to the DRAd and copied to the other party.

#### 3.6.4.6 Suspension and Deletion from the list as a result of unsatisfactory performance

The JMC shall convene a meeting upon receipt of a recommendation from ArchSD for the suspension or deletion of a DRAd from the list.

Whenever possible the Contractor's endorsement of the action to seek suspension or deletion should be obtained prior to ArchSD approaching the JMC.

The DRAd shall be informed of the decision in writing by the Secretary of the JMC and an updated list shall be issued to HKCA.

#### 3.6.4.7 Resignation from DRAd Assignment

If a DRAd tenders his/her resignation from DRAd assignment, he/she will be suspended from bidding for a period of minimum twelve months. A letter will be sent to the DRAd by the Secretary of the JMC for notification of the suspension. His/her submitted bids, though being under assessment, shall not be considered further.

If the DRAd who has been suspended from bidding due to resignation from DRAd assignment wishes to be exempted from the suspension, he/she shall apply in writing to the JMC providing the reason(s) for the resignation. The JMC will review the application in its next available meeting. If necessary, the JMC may invite the DRAd to attend an interview.

Should the JMC consider the reason(s) provided by the DRAd who has tendered resignation reasonable and acceptable, the Secretary of the JMC will inform the DRAd in writing of the uplifting of suspension.

Upon expiry of the suspension period, a suspended DRAd should apply in writing for uplifting of the suspension and confirm his/ her intention to undertake DRAd assignments. The JMC shall review the application at the next available JMC meeting. The DRAd shall be informed of the result in writing by the Secretary of the JMC and an updated DRAd list shall be issued to HKCA.

## **DISPUTE RESOLUTION ADVISOR (DRAd) PERFORMANCE REPORTING PROCEDURES**

### **1.0 Performance Reporting Procedures**

In order to ensure that a Dispute Resolution Advisor (DRAd) performs the services in accordance with the Agreement the following reporting procedures shall be followed.

### **2.0 Aspects of DRAd's Performance**

Examples of the aspects of performance that may be considered appropriate are given at **Appendix 3.2**

### **3.0 Interim Report (see Appendix 3.2, Proforma No. 1)**

- 3.1 A DRAd is engaged under the Standard Form of Dispute Resolution Advisor (DRAd) Agreement. Whilst the general format of Interim Report forms is the same, their detail varies in accordance with the wide duties undertaken by the DRAd.
- 3.2 Interim Reports on the DRAd's performance are required to be submitted on a quarterly basis, covering the period from start to completion or termination of the DRAd agreement. The reporting periods for such Interim Reports end on the last day of March, June, September and December. Where the completion or termination of the DRAd agreement is near to the time of the periodic report then both the last Interim Report and the Final Report are required.
- 3.3 Section 1 is the same for all Interim Report forms, and gives details pertaining to the Assignment. It shall be completed by Technical Secretary/1 and sent to the DTL (through the CA) within the last month of the report period. Any changes to the details shall be made by the Reporting Officer, in consultation with the CA or above, in such a way as to highlight them (e.g. in red ink).

## Appendix 3.1

- 3.4 Section 2 of all Interim Report forms deals with the DRAd's performance. It makes provision for the Reporting Officer to assess various aspects of the DRAd's performance that are considered important. See **Appendix 3.2** which lists those aspects of performance which may be considered as appropriate.
- 3.5 Part A of the Report shall be completed by the Reporting Officer, while Part B shall be completed by the Contractor. For administrative convenience, the Reporting Officer shall be responsible for issuing Part B to the Contractor and submitting Parts A and B to the Secretary of the JMC. A common set of aspects of assessment shall be agreed between the Reporting Officer and the Contractor before completing their respective reports.
- 3.6 The line between 'good' and 'fair', which marks the centre of the six grades, shall be seen as representing the lower end of a standard expected by the Employer. It does not necessarily represent the standard of the average DRAd. Anything less than 'fair' shall be considered adverse. The six gradings are defined thus :-

### **Grade**

A	(Outstanding)	Exceptionally effective
B	(Very good)	More than generally effective but not positively outstanding
C	(Good)	Generally effective
D	(Fair)	Performs duties moderately well and without serious shortcomings
E	(Not quite adequate)	Definite weaknesses make him not quite good enough to get by
F	(Unsatisfactory)	Definitely not up to the duties expected of him

## **.Appendix 3.1**

- 3.7 A tick shall be placed by the Reporting Officer in the box considered appropriate to the aspect of the work being assessed.
- 3.8 Section 3 is for general comments which shall be consistent with, and shall amplify, the grading given, particularly any extreme cases, and generally summarise the DRAd's performance for the period under review. They may be continued overleaf if necessary.
- 3.9 Prior to the submission of the report to JMC, Part A of the report shall be reported by the Reporting Officer, endorsed by the CA, and forwarded to Technical Secretary/1, together with Part B previously submitted by the Contractor.
- 3.10 Section 4 is the "Overall Assessment" on the performance of the DRAd and this is to be completed by the CA based on Part A and Part B of the Performance Report. If the overall assessments in Part A and Part B are different, the following guidelines should be followed:-
- (a) In the event that both parties rate "Acceptable" or "Adverse" in the overall assessment of Part A and Part B of the Performance Report, but the Grades are different (e.g. CA rates "B" while the Contractor rates "C"), ArchSD's overall assessment in Part A of Section 2 should prevail the overall assessment in Section 4.
  - (b) In the event that one party rates "Acceptable" while the other party rates "Adverse" in the overall assessment of Part A and Part B of the Performance Report, the JMC will, in consultation with ArchSD and/or the Contractor as appropriate, make an "Overall Assessment" of the DRAd's performance for the report in question.

### **4.0 Final Report (see Appendix 3.2, Proforma No. 2)**

- 4.1 The Final Report is a summary of the DRAd's overall performance at completion of his duties relating to that contract. It is similar in format to the Interim Reports but may also be used in recommending a DRAd's suitability for future assignments. As with an Interim Report, Part A shall be reported by the Reporting Officer, endorsed by the CA, and forwarded to Technical Secretary/1, together with Part B previously submitted by the Contractor.

- 4.2 The Final Report follows the same format and considers the aspects of performance for that contract.
- 4.3 The Final Report form may also be used as a Supplementary Final Report in the event of later developments making the First Final Report, in whole or in part, invalid (e.g. when shortcomings in performance come to light after the Final Report thus invalidating the findings of that Report). In such a case, the First Final Report, although superseded, is retained for record purposes.

## **5.0 Administration of the Reporting System**

- 5.1 Technical Secretary/1 of ArchSD is responsible for maintaining a file for administering the performance reporting of DRAd undertaking ArchSD projects.
- 5.2 For DRAd undertaking engineering works projects, a representative of a civil engineering stream Works Department (on yearly rotation basis among CEDD, DSD, HyD and WSD) would be responsible for such administration works.
- 5.3 For ArchSD projects, Technical Secretary/1 shall receive details, through the DTL, of the appointment of a new DRAd. The details provided shall be sufficient to complete Section 1 of the Interim Report form showing clearly, the duties to be undertaken by the DRAd and the expected expiry date of the last Maintenance Period of the works contract.
- 5.4 For ArchSD projects, Technical Secretary/1 shall send the forms individually to the DTL, through the CA, within the month prior to the expected deadline for reporting (unless otherwise instructed by the JMC).
- 5.5 The reports shall be held on “Restricted” files - one for each DRAd - and these shall be made available to DTL for the purpose of short-listing of DRAd.

## CONTRACT ADMINISTRATION PROCEDURES

## PART 4

### CONTRACT ADMINISTRATIVE PROCEDURES

#### 4.1 PURPOSE OF THE DISPUTE RESOLUTION ADVISOR (DRAd) SYSTEM

The Dispute Resolution Advisor (DRAd) System is intended to foster co-operation between all parties to the contract, that is the Employer, the Contractor and any Nominated Sub-contractor or Specialist Sub-contractor. The DRAd System is also intended to minimize the number of claims, disputes and disruption to the Works, and to ensure the cost-effective and expeditious resolution of disputes that do arise.

#### 4.2 SPECIALIST SUB-CONTRACTORS AND NOMINATED SUB-CONTRACTORS

All contracts between the Contractor and any Specialist Sub-contractor or Nominated Sub-contractor engaged for the execution of any part of the Works shall have a Clause requiring the Specialist Sub-contractor or Nominated Sub-contractor to participate fully in the DRAd system.

#### 4.3 SELECTION AND APPOINTMENT OF DRAd

4.3.1 A DRAd shall be appointed within \* days (*\* insert time limit to appoint DRAd subject to a maximum of 60 days, to be decided by the project team*) from the award of the Contract. The DRAd shall be an individual with general construction experience, and an individual with dispute resolution skills. He shall be neutral and independent of both parties. He cannot be an employee of either the Employer or Contractor or of any Specialist Sub-contractor or Nominated Sub-contractor who may be engaged to execute any part of the Works and shall not have any actual or perceived conflict of interest.

4.3.2 DRAd selection and appointment procedures in works contracts set out in PART 2 of this Handbook.

#### **4.4 PARTIES TO ENTER INTO A DRAd AGREEMENT**

The Employer and the Contractor shall be required to enter into a Dispute Resolution Advisor (DRAd) Agreement with the DRAd which shall, inter alia, give effect to the obligations of the DRAd. The DRAd Agreement is at **Appendix 2.4, Proforma No. 2.**

#### **4.5 PAYMENT OF DRAd FEES**

Subject to any transfer of costs ordered by the arbitrator pursuant to Article 20(b) of the Short Form Arbitration Rules appended hereto the Employer and the Contractor shall each pay 50% of the DRAd fees and expenses in respect of the DRAd services provided to them as described in Dispute Resolution Advisor Agreement. If either the Employer or the Contractor fails to pay any amount due by them within 7 days after the due date, then whichever of them is not in default shall pay the amount owing to the DRAd. This amount shall then be a debt due from whichever has not paid the debt to the other. Should the Employer make such a payment as a result of the Contractor's default, he shall, in addition to any other rights he may have, be entitled to deduct the amount paid from any monies due from the Employer to the Contractor under General Conditions of Contract Clause 83 or otherwise.

#### **4.6 TENURE OF DRAd**

4.6.1 The tenure of the DRAd shall, unless the Employer and the Contractor otherwise agree in writing, cease upon the expiry of the Maintenance Period, save that the tenure of the DRAd shall automatically be extended beyond the expiry of the said Maintenance Period for the purposes of resolving any dispute for which a Notice of Dispute has been served in accordance with Clauses under 4.8 of these Procedures. The DRAd can be discharged at any time by a joint written notice from the Employer and the Contractor. The Employer or the Contractor may discharge the DRAd unilaterally at any time after the first six months of his tenure as DRAd. If either the Employer or the Contractor wishes to discharge the DRAd after the first six months then the one shall be required to confer in good faith with the other regarding the discharge.

- 4.6.2 In the event of different Maintenance Periods having been named for different Sections or in the event of more than one Maintenance Period for different Sections or parts of the Works under the Contract, the expression “Maintenance Period” shall, for the purpose of this Clause, mean the last of such Maintenance Periods.
- 4.6.3 If the DRAd is discharged pursuant to Clause 4.6.1 of these Procedures, or resigns from the position, or is otherwise unable to fulfill his obligations, the Employer and the Contractor shall choose another DRAd pursuant to Clause 4.3.2 of these Procedures, save that the replacement DRAd shall be appointed within \* days (*\* insert time limit to appoint DRAd subject to a maximum of 60 days, to be decided by the project team*) after the date of discharge or resignation or incapacity of the incumbent DRAd.

#### **4.7 DUTIES AND OBLIGATIONS OF THE DRAd**

The DRAd shall carry out the duties and obligations ascribed to him in the Dispute Resolution Advisor (DRAd) agreement at **Appendix 2.4, Proforma No. 2.**

#### **4.8 DISPUTE RESOLUTION PROCESS**

- 4.8.1 If either the Employer or the Contractor disputes any decision, instruction, order, direction or certificate of the Supervising Officer or certificate or valuation by the Surveyor, the disputes shall be resolved pursuant to Clauses under 4.8 and 4.9 of these Procedures.
- 4.8.2 The site level representatives of the Employer and the Contractor shall first attempt to settle the dispute on their own. With respect to any dispute the Employer and the Contractor shall have the obligation to attempt in good faith to resolve the dispute during the 28 day period following the Supervising Officer’s decision, instruction, order, direction or certificate or the Surveyor’s certificate or valuation. If the site level representatives cannot settle the dispute, the aggrieved party may file a Notice of Dispute following the termination of such efforts to reach agreement but in no event later than the end of this 28 day period. For the purposes of this Clause, a “Notice of Dispute” shall be a notice in writing from the Employer to the Contractor or from the Contractor to the

Employer as the case may be setting out brief self-explanatory details of the matter in dispute. The Notice of Dispute shall be copied to the DRAd. If the Notice of Dispute is not served within the time period aforesaid, the Supervising Officer's decision, instruction, order, direction or certificate or the Surveyor's certificate or valuation shall become final and binding on both the Employer and the Contractor. The term 'site level representative of the Employer' shall include the Supervising Officer and/or Surveyor and their representatives.

4.8.3 If the dispute cannot be settled by site level representatives of the Employer and the Contractor on their own, either the Employer or the Contractor shall serve a Notice of Dispute. The DRAd shall promptly meet with the site level representatives of the Employer and the Contractor, and if appropriate, with the site representatives of any relevant Specialist Sub-contractor or Nominated Sub-contractor, to attempt to resolve the dispute at site level. The DRAd shall have access to those records that are material to the dispute. The DRAd shall have flexibility in the choice of a dispute resolution approach that he can use to help to settle the dispute.

4.8.4 If the dispute cannot be resolved at site level within 14 days from the service of the Notice of Dispute, the DRAd shall within 3 days from the expiry of that 14-day period send a written report (hereinafter called "the Report") to the non-site senior officers of the Employer and the Contractor. The Report shall be concise and shall analyse the dispute. It shall identify the key issues in dispute and the perceptions of the DRAd as to the obstacles to settlement. If requested in writing by both the Employer and the Contractor, the DRAd shall within 3 days from such request also provide either a non-binding recommendation for a resolution or a non-binding evaluation of the merits of the dispute. The DRAd may show a draft of the Report to the site level personnel before it is served to the non-site senior officers. The Report of the DRAd shall not be admissible in any subsequent arbitration or litigation, except pursuant to Article 20(b) of the Short Form Arbitration Rules appended hereto.

- 4.8.5 Within 7 days from receipt of the Report from the DRAd, the non-site senior officers shall meet in order to attempt to settle the dispute. The DRAd shall only attend this meeting if the Employer and the Contractor request in writing that he do so. The DRAd shall also be available to attend separate meetings with the Employer or with the Contractor to respond to questions about the Report.
- 4.8.6 If the dispute is not settled within 21 days from date of the service of the Report to the non-site senior officers, the DRAd may recommend to the Employer and the Contractor another form of dispute resolution that, in his judgment may be a more effective means of resolving the dispute than the short form arbitration referred to in Clause 4.9 of these Procedures. The Employer and the Contractor shall not be obliged to accept the recommendation of the DRAd. In the absence of a settlement or of the adoption of another dispute resolution approach, the Employer and the Contractor shall participate in the short form arbitration described in Clause 4.9 of these Procedures. The arbitration shall take place within 28 days from the date that non-site senior officer settlement efforts have terminated.

# PART 5

## STANDARD TENDER / CONTRACT DOCUMENTS (For Non Design and Build Project)

**Special Conditions of Contract and Guidance Note  
for use in contracts adopting the DRAd system**

SCC59	General Conditions of Contract Clause 86 is deleted and replaced by the following :	Dispute resolution
	<p>(1) In order to foster co-operation between the Employer and the Contractor and among Specialist Sub-contractors and Nominated Sub-contractors who may be engaged for the execution of any part of the Works, to minimize the volume of claims, disputes and disruptions to the Works, and to ensure the cost-effective and expeditious resolution of those disputes that do arise, the Dispute Resolution Advisor (DRAd) system, as set forth in this Clause, shall be implemented.</p> <p>(2) All contracts between the Contractor and any Specialist Sub-contractor or Nominated Sub-contractor engaged for the execution of any part of the Works shall have a Clause requiring the Specialist Sub-contractor or Nominated Sub-contractor to participate fully in the DRAd system set forth herein. The Specialist Sub-contractor or Nominated Sub-contractor shall attend the regular meetings required by sub-clause (4)(b) of this Clause if the progress of the Works dictates. Any Specialist Sub-contractor or Nominated Sub-contractor shall attend the regular meetings required by sub-clause (4)(b) of this Clause if the DRAd requests such any attendance in writing. Any Specialist Sub-contractor or Nominated Sub-contractor shall attend a meeting relating between the Employer and the Contractor in which he is involved, if the DRAd requests such attendance in writing. Any Specialist Sub-contractor or Nominated Sub-contractor shall resolve any claims he has against the Contractor which arise out of a dispute between the Contractor and the Employer over the Specialist Sub-contractor's or Nominated Sub-contractor's works by the process required by sub-clause (5) of this Clause and shall be bound by the results of that process.</p>	

- (3) (a) A DRAd shall be appointed within \* days [\* **insert time limit to appoint DRAd subject to a maximum of 60 days, to be decided by the project team**] of the award of the Contract. The DRAd shall be an individual with general construction experience and knowledge, and an individual with dispute resolution skills. He shall be neutral and independent of both parties. He cannot be an employee of either the Employer or Contractor or any Specialist Sub-contractor or Nominated Sub-contractor who may be engaged for the execution of any part of the Works and shall not have any actual conflict of interest.
- (b) After award of the Contract, the Employer will provide the Contractor a list of DRAd. Based on the list, the Contractor shall select five DRAd candidates and advise the Employer together with confirmation letters from the selected DRAd candidates indicating their agreement to bid for the DRAd work for the Contract within seven days after receiving the Employer's list.
- (c) The Employer will approach the Contractor's selected candidates to obtain submissions from each DRAd candidate in accordance with the Guidance Notes as attached in Appendix # to the Special Conditions of Contract. **[Guidance Note: Refer to the 'Guidance Notes for Preparing Submissions for Appointment as Dispute Resolution Advisor (DRAd)' as attached to standard form QS/DR.020.]**
- (d) The DRAd candidate shall submit two copies of the technical and fee proposals simultaneously, one for the Contractor and one for the Employer.

- (e) The Employer and the Contractor shall jointly select a DRAd candidate by agreement through a ranking system as described herein. The Contractor shall meet with the Employer within seven days after the closing date for the DRAd candidates' submissions. The ranking of the DRAd candidates by both parties shall be revealed in the meeting. The DRAd candidate with the lowest combined number shall be chosen and approached for appointment. In the event that the DRAd candidate with the lowest combined number for any reason cannot or will not take up the DRAd position for the Contract or is considered and proposed by the Employer and agreed by the Contractor to be inappropriate or ineligible to take up the DRAd position for the Contract, then the DRAd candidate with the next lowest combined number in order of preference shall be approached for appointment. The Contractor shall not unreasonably disagree with the Employer's proposal. This process shall go on as the circumstances may so require until a DRAd is appointed. Should the Employer and the Contractor fail to agree on a suitable DRAd within the period specified in sub-clause (3)(a) of this Clause then the DRAd shall be appointed upon the written application of either the Employer or the Contractor by the Hong Kong International Arbitration Centre.
- (f) A meeting will then be arranged with the Contractor, the chosen DRAd and the Employer to execute the Dispute Resolution Advisor Agreement. A pro-forma of this Agreement is attached at Appendix # to the Special Conditions of Contract. **[Guidance Note: Refer to DRAd System Handbook Appendix 2.4 Proforma No. 2.]**

- (g) The tenure of the DRAd shall, unless the Employer and the Contractor otherwise agree in writing, cease upon the expiry of the Maintenance Period, save that the tenure of the DRAd shall automatically be extended beyond the expiry of the said Maintenance Period for the purposes of resolving any dispute for which a Notice of Dispute has been served in accordance with sub-clause (5) of this Clause. The DRAd can be discharged at any time by a joint written notice from the Employer and the Contractor. The Employer or the Contractor may discharge the DRAd unilaterally at any time after the first six months of his tenure as DRAd. If either the Employer or the Contractor wishes to discharge the DRAd after six months then the one shall be required to confer in good faith with the other regarding the discharge. In the event of different Maintenance Periods having been named for different Sections or in the event of more than one Maintenance Period for different Sections or parts of the Works under the Contract, the expression “Maintenance Period” shall, for the purpose of this Clause, mean the last of such Maintenance Periods.
- (h) If the DRAd is discharged pursuant to sub-clause (3)(g) of this Clause, or resigns from the position, or is otherwise unable to fulfill his obligations, the Employer and the Contractor shall choose another DRAd pursuant to the procedures set forth in sub-clauses (3)(b) to (3)(f) of this Clause, save that the replacement DRAd shall be appointed within \* days [**\* insert time limit to appoint DRAd subject to a maximum of 60 days, to be decided by the project team**] after the date of discharge or resignation or incapacity of the incumbent DRAd.

- (4) (a) The DRAd shall spend a sufficient amount of time at the beginning of each section of the Works on the Site to become familiar with the relevant personnel, including the Supervising Officer, the Supervising Officer's Representative, the Surveyor, the Surveyor's Representative, the liaison from the end-user's administration (where appropriate), and the representatives of the Contractor and some or all of the Specialist Sub-contractors or Nominated Sub-contractors. The DRAd shall also become familiar with the construction, design and programme for that section of the Works, including all plans for the co-ordination of building services.
- (b) The DRAd shall meet on monthly basis with the Employer and the Contractor either separately or together to attempt to resolve problems that arise before they become formal disputes and to anticipate problems that may arise in the future. The DRAd shall meet more frequently with the Employer and the Contractor if either of them request such a meeting. Such request shall be in writing.
- (5) (a) If either the Employer or the Contractor disputes any decision, instruction, order, direction or certificate of the Supervising Officer or certificate or valuation by the Surveyor, the disputes shall be resolved pursuant to the procedures set forth in sub-clauses (5) and (6) of this Clause.

- (b) The site level representatives of the Employer and the Contractor shall first attempt to settle the dispute on their own. With respect to any dispute the Employer and the Contractor shall have the obligation to attempt in good faith to resolve the dispute during the 28 day period following the Supervising Officer's decision, instruction order, direction or certificate or the Surveyor's certificate or valuation. If the site level representatives cannot settle the dispute, the aggrieved party may file a Notice of Dispute following the termination of such efforts to reach agreement but in no event later than the end of this 28 day period. For the purposes of this Clause, a "Notice of Dispute" shall be a notice in writing from the Employer to the Contractor or from the Contractor to the Employer as the case may be setting out brief self-explanatory details of the matter in dispute. The Notice of Dispute shall be copied to the DRAd. If the Notice of Dispute is not served within the time period aforesaid, the Supervising Officer's decision, instruction, order, direction or certificate or the Surveyor's certificate or valuation shall become final and binding on both the Employer and the Contractor.
  
- (c) If the dispute cannot be settled by site level representatives of the Employer and the Contractor on their own, either the Employer or the Contractor shall serve a Notice of Dispute. The DRAd shall promptly meet with the site level representatives of the Employer and the Contractor, and if appropriate, with site representatives of any relevant Specialist Sub-contractor or Nominated Sub-contractor, to attempt to resolve the dispute at site level. The DRAd shall have access to those records that are material to the dispute. The DRAd shall have flexibility in the choice of a dispute resolution approach that he can use to help to settle the dispute.
  
- (d) For the purpose of this Clause, the reference to the term 'site level representative of the Employer' shall include the Supervising Officer and/or Surveyor and their representatives.

- (e) (i) If the dispute cannot be resolved at site level within 14 days from the service of the Notice of Dispute, the DRAd shall within 3 days from the expiry of that 14-day period send a written report (hereinafter called “the Report”) to non-site senior officers of the Employer and the Contractor. The Report shall be concise and shall analyse the dispute. It shall identify the key issues in dispute and the perceptions of the DRAd as to the obstacles to settlement. If requested in writing by both the Employer and the Contractor, the DRAd shall within 3 days from such request also provide either a non-binding recommendation for a resolution or a non-binding evaluation of the merits of the dispute. The DRAd may show a draft of the Report to the site level personnel before it is served to the non-site senior officers. The Report of the DRAd shall not be admissible in any subsequent arbitration or litigation, except as set forth in sub-clause (8) of this Clause.
- (ii) Within 7 days upon receipt of the Report from the DRAd, the non-site senior officers shall meet in order to attempt to settle the dispute. The DRAd shall only attend this meeting if the Employer and the Contractor request in writing that he do so. The DRAd shall also be available to attend separate meetings with the Employer or with the Contractor to respond to questions about the Report.
- (f) (i) If the dispute is not settled within 21 days of date of the service of the Report to the non-site senior officers, the DRAd may recommend to the Employer and the Contractor another form of dispute resolution that, in his judgement may be a more effective means of resolving the dispute than the short form arbitration described in sub-clause (6) of this Clause. The Employer and the Contractor shall not be obliged to accept the recommendation of the DRAd. In the absence of a settlement or of the adoption of another dispute resolution approach, the Employer and the Contractor shall participate in the short form arbitration described in sub-clause (6) of this Clause. The arbitration shall take place within 28 days of the date that non-site senior officer settlement efforts have terminated.

- (ii) The arbitrator shall be selected by the Employer and the Contractor, including any Specialist Sub-contractor or Nominated Sub-contractor who may be obliged to participate in the arbitration and be bound by the determination of the arbitrator. The DRAd shall assist the Employer and the Contractor in choosing an arbitrator. The DRAd shall determine whether, under the circumstances of the particular dispute, the Contractor and the Specialist Sub-contractor or Nominated Sub-contractor have an identity of interest such that they shall be treated as one party for the purposes of selecting an arbitrator. If the Employer and the Contractor cannot agree on the arbitrator, then the arbitrator shall be appointed upon the written application of either the Employer or the Contractor by the Hong Kong International Arbitration Centre (“HKIAC”), or, alternatively, where a party proposes and the other party concurs then the arbitrator shall be appointed in accordance with the HKIAC list system for the appointment of arbitrators.
  
- (6) The short form arbitration shall be governed by the “Short Form Arbitration Rules” set out in the Architectural Services Department’s Standard Form No. QS/TD.400 at **Appendix [ ]** hereto and shall for all types of disputes have the following characteristics :
  - (a) The hearing shall involve one or, with the written agreement of the Employer and the Contractor, at most, a limited number of distinct claims or issues.
  
  - (b) If the hearing involves one claim or issue, the arbitration shall be conducted and concluded in, at most, one day. If it involves more than one distinct claim or issue, the Employer and the Contractor shall agree on a maximum length of time for the hearing, which shall be as short as possible. Failing agreement the arbitrator shall fix the time. In determining the maximum time for the length of the hearing, account shall be taken as to whether, under the circumstances of the particular dispute, the Contractor and the Specialist Sub-contractor or Nominated Sub-contractor have an identity of interest such that they shall be treated as one party for the purposes of making a presentation.

- (c) Each of the Employer and the Contractor and, if appropriate, the Specialist Sub-contractor, or Nominated Sub-contractor shall have the opportunity to present his case to the arbitrator, either through written presentation, oral evidence or the use of affidavits and documents.
- (d) The arbitrator shall fairly allocate the amount of time within the day for each presentation as well as for questions and dialogue with the Employer and the Contractor and if applicable the Specialist Sub-contractor or Nominated Sub-contractor. The arbitrator may otherwise conduct the arbitration in such a manner as he deems reasonable and in accordance with the rules of natural justice.
- (e) Subject to section 72 of the Arbitration Ordinance, the arbitrator shall have 7 days from the date of the hearing to make an award. The award shall be in writing and unless the Employer and the Contractor agree otherwise or the award is an award on agreed terms under section 66(1) of the Arbitration Ordinance, shall contain a concise reasoned decision with sufficient detail so that each of the Employer and the Contractor may appreciate the reasons for the outcome of the award.
- (f) The decision of the arbitrator shall be final and binding on the Employer and the Contractor and, if applicable, the Specialist Sub-contractor or Nominated Sub-contractor shall in the absence of an award to the contrary, be implemented forthwith.
- (7) Certain evidence as set forth herein, even if relevant, shall be privileged and not admissible during the course of the arbitration. The Report of the DARd, as well as any prior expressions of his views, shall not be admissible in the arbitration, except as set forth in sub-clause (8) of this Clause. Any statements of the Employer, Contractor, Specialist Sub-contractor or Nominated Sub-contractor representatives regarding the issue in dispute that are made in a meeting with the DRAd after the service of the Notice of Dispute or that were otherwise made in confidence to the DRAd, as well as any settlement offers made by the Employer, the Contractor, Specialist Sub-contractor or Nominated Sub-contractor, shall also be inadmissible in the arbitration. The DRAd cannot be called as a witness in an arbitration.

- (8) The DRAd Report, may be admissible only if it is relevant to the issue of whether the costs of the DRAd involvement with respect to a particular dispute may be transferred from the Employer to the Contractor or from the Contractor to the Employer as the case may be. The arbitrator has the authority to transfer the costs of the DRAd services in writing the Report and meeting with the senior officers, to whichever of the Employer or the Contractor is the losing party if he determines that the losing party has pursued a patently unreasonable argument. The DRAd Report may be admissible only after the arbitration award, save for the award as to costs, has been made and published and then only if the arbitrator believes that it is appropriate to take evidence as to whether costs should be transferred. The provisions of this sub-clause shall also apply in respect of the transfer of the costs of the DRAd involvement where the arbitration involves more than two parties.
- (9) The costs of the reference and the award shall be at the discretion of the arbitrator.
- (10) Notwithstanding any provision to the contrary, the following time frames shall apply in respect of the following types of claims evaluation, ascertainment and determinations that may arise under the Contract.
- (a) With respect to any Surveyor's determination arising under Clause 61 of the General Conditions of Contract relating to an evaluation by the Surveyor of a variation, the Surveyor's duty to determine the sum which in his opinion shall be added to or deducted from the Contract Sum shall commence with the issuance of the variation by the Supervising Officer and such determination shall be provided to the Contractor within 56 days thereafter. If the Surveyor considers that he reasonably requires information from the Contractor to assist in the determination, the Surveyor shall request such information in writing within 7 days of the issuance of the variation by the Supervising Officer. The Contractor shall provide within 7 days of receipt of the request any information that the Surveyor may reasonably require to assist in this determination. In the absence of the information requested, the Surveyor may make his determination based on the information otherwise available to him.
