

Stargazing facilities at Sai Kung

This 30 second video shows the newly opened stargazing facilities at Sai Kung.

It opens with a night view showing the starry sky and the stargazing facility.

Follows by an aerial overview of the design in a green setting.

3 close up shots of the project showing the elegant details of the design and the curvy form echoing with nature.

The video ends with an overall still shot of the design complementing the nature environment, and at the very end shows the same image at the start of the video.
