

**SCHEDULE OF RATES
FOR TERM CONTRACTS FOR BUILDING WORKS 2013 EDITION
(Architectural Services Department Hong Kong)**

CORRIGENDUM NO.1 – JANUARY 2015

VOLUME ONE – BUILDER’S WORKS

INTRODUCTION

- (a) The following Sections are amendments and supplements to the above 2013 edition of Schedule of Rates for Term Contracts for Building Works (hereinafter referred as “SOR2013”) published by the Architectural Services Department. The Corrigendum of these Sections shall be read and used in conjunction with the SOR2013.
- (b) In the event of doubt or discrepancy between individual items and/or rates included in SOR2013 and this Corrigendum, this Corrigendum shall prevail. Upon any ambiguities or uncertainties, the Maintenance Surveyor shall be informed, who shall decide the items and/or rates to be used for the works.

SECTION 00 – GENERAL REGULATIONS

GENERAL REGULATIONS

Rates for items not specifically mentioned in this Schedule

- GR.11 (i) Replace the word “Percentage” with “Percentages” in sub-clauses (a) and (c).
- (ii) Replace the words “Such star rate shall not be subject to relevant Contract Percentage adjustment.” with “Such star rate shall not be subject to relevant Contract Percentages adjustment unless otherwise specifically stated.” in sub-clause (b).

SECTION 07 – ROOFING AND WATERPROOFING

PROPRIETARY ROOFING SYSTEM AND FLOOR WATERPROOFING SYSTEM

Item 07137 is deleted
Item 07149 is added

SECTION 16 – REPAIRS AND ALTERATION TO SPECIALTY WORKS

REPAIRS TO PROPRIETARY ROOFING SYSTEM OR FLOOR WATERPROOFING SYSTEM

Item 16009 is deleted
Item 16044 is added

**SCHEDULE OF RATES
FOR TERM CONTRACTS FOR BUILDING WORKS 2013 EDITION
(Architectural Services Department Hong Kong)**

CORRIGENDUM NO.1 – JANUARY 2015

VOLUME ONE – BUILDER’S WORKS (CONT’D)

SECTION 19 – RECREATIONAL / SPORTS SURFACING AND PROTECTIVE PADDING

SPECIAL CONDITIONS

The following Clause is deleted:

SC19.06 Rates for self-levelling semi-flexible screed

Rates for recreational surfaces coating system

SC19.07 Replace sub-clause (a) with the following:

- (a) All preparation work to existing surfaces as recommended by the manufacturer, including repairing cracks, applying floor bonding / binding agent and preparing the surfaces for application of the self-levelling and smoothing screed when required.

The following sub-clauses (k) and (l) are added:

- (k) Proprietary recreational surface coating system referred hereinafter shall mean the surface coating system approved by the Maintenance Surveyor.
- (l) For avoidance of doubt, all rates in this sub-section shall deem to apply to works executed by the specialist contractors or applicators approved by the Maintenance Surveyor.

The following Clause is added:

Rates for proprietary self-levelling and smoothing screed

SC19.09 The rates for self-levelling and smoothing screed shall further include for: -

- (a) Supply and laying screed compatible to the proprietary recreational surface coating system to be applied and in accordance with manufacturer’s instruction.
- (b) Working into channels and recessed covers and working around pipes, metal sections and the like.
- (c) Laying or executing work in bays or between strips, circular or pattern.
- (d) All temporary formwork or rules.
- (e) All joints between different types of materials and joints between new and existing surfaces including wire netting as G.S. Item 18.14.
- (f) Covering up and protecting where necessary.

**SCHEDULE OF RATES
FOR TERM CONTRACTS FOR BUILDING WORKS 2013 EDITION
(Architectural Services Department Hong Kong)**

CORRIGENDUM NO.1 – JANUARY 2015

VOLUME ONE – BUILDER’S WORKS (CONT’D)

- (g) Provision of literature, test certificates, reports, maintenance manuals, manufacturer’s guarantee and supplier’s / applicator’s warranty.

TREATMENT TO EXISTING / NEW SUBSTRATES FOR RECREATIONAL SURFACE COATING SYSTEM

Item 19052 is deleted

Item 19077 is added

RECREATIONAL SURFACE COATING SYSTEM

Items 19053 to 19076 are deleted

Items 19078 to 19087 are added

SECTION 20 – FIXTURES AND FITTINGS

SPECIAL CONDITIONS

Rates for sanitary fittings and parts of sanitary fittings generally

SC20.20 Replace sub-clause (a) with the following:

Supply and installation of the sanitary fittings in any size (unless specifically stated otherwise) and in white or any standard colours, all in accordance with the manufacturer’s recommendations.

Clause SC20.21 is replaced by the following:

Rates for taps, cocks, mixers and urinal flush valves

SC20.21 The rates for taps, cocks, mixers and urinal flush valves shall further include for:-

- (a) Supply and installation of fittings in brass, chromium plated brass and other materials of the like.
- (b) Different diameter of fittings, unless otherwise specifically stated.
- (c) Furthermore where taps, cocks, mixers and urinal flush valves are electronic operated and fitted with electronic infra-red sensor devices, the rates shall further include for fittings that have been registered with and certified by WSD under the Water Efficiency Labelling Scheme (WELS) as having the specified water efficiency grade (either Grade 1, 2, 3 or 4).

(Architectural Services Department Hong Kong)**

CORRIGENDUM NO.1 – JANUARY 2015

VOLUME ONE – BUILDER’S WORKS (CONT’D)

SANITARY FITTINGS

SINKS

Item 20210 is deleted
Item 20385 is added

SELF-CLOSING TAPS, COCKS AND MIXERS WITH TIME-DELAY CLOSING ACTION

Items 20225 to 20231 are deleted
Items 20386 to 20393 are added

ELECTRONIC OPERATED TAPS, COCKS AND MIXERS

The sub-heading of items 20235 – 20242 is replaced with the following:

Electronic operated taps, cocks or mixers with adjustable self closing timing devices, electronic infra-red sensor devices, powered by transformer or battery operated complete with control box, angle stop cocks with built-in filter and check valve, fittings and fixing accessories, and including certification under the WSD Water Efficiency Labelling Scheme (WELS) as Grade 1, 2, 3 or 4 type:-

PARTS OF SANITARY FITTINGS

URINAL FITTINGS AND ACCESSORIES

Items 20280 to 20282 are deleted
Items 20394 to 20396 are added

SHOWER FITTINGS

Items 20307 to 20308 are deleted
Items 20397 to 20399 are added

SECTION 22 – LANDSCAPE WORK

SPECIAL CONDITIONS

The first sub-clause of Clause SC22.01 is replaced by the following:

Specification

SC22.01 Further to General Regulations Clause GR.01, this Section shall generally be read and used in conjunction with the Specification relating to landscape work and new planting works adopted in the Contract.

**SCHEDULE OF RATES
FOR TERM CONTRACTS FOR BUILDING WORKS 2013 EDITION
(Architectural Services Department Hong Kong)**

CORRIGENDUM NO.1 – JANUARY 2015

VOLUME ONE – BUILDER’S WORKS (CONT’D)

Clause SC22.02 is replaced by the following:

Measurement of clearing and removing from Site rubbish, litter, etc.

SC22.02 Clearing, cutting down and removing from Site rubbish, litter, construction debris, stones, grass, weed, vines, shrubs, undergrowth, etc. and the like including trees not exceeding 95 mm DBH shall be measured based on the overall surface area covered; and no allowance shall be made for surface irregularities or other local peculiarities.

No deduction shall be made for any area not exceeding 1.00m².

The items for clearing, cutting down and removing from Site rubbish, litter, construction debris, stones, grass, weed, vines, shrubs, undergrowth, etc. and the like including trees not exceeding 95 mm DBH shall not be paid for if such work is carried out in conjunction with the excavation works, or if excavation is subsequently carried out by the Contractor at the same location.

Clause SC22.03 is replaced by the following:

Rates for clearing and removing from Site rubbish, litter, etc.

SC22.03 The rates for clearing, cutting down and removing from Site rubbish, litter, construction debris, stones, grass, weed, vines, shrubs, clearing and undergrowth, etc. and the like including trees not exceeding 95 mm DBH shall include for cutting the same down to below 25 mm of the level of the ground or sloping ground and, if required, grubbing out all roots and stumps and filling voids with approved materials.

Clause SC22.05 is replaced by the following:

Rates for supplying, taking delivery, spreading and levelling or mixing decomposite granite, manufactured soil conditioner, sand, mulch, pine bark mulch, peat moss, alginate, soil stablizer, stone chips and water absorbing soil additive

SC22.05 The rates for supplying, taking delivery, spreading, levelling or mixing the decomposite granite, manufactured soil conditioner, sand, mulch, pine bark mulch, peat moss, alginate, soil stablizer, stone chips and water absorbing soil additive shall include for supplying, loading, and/or transporting from any locations as directed; unloading, spreading the mulch or pine bark mulch evenly on the surface of the soil to the specified depth; or mixing the decomposite granite, manufactured soil conditioner, sand, peat moss, alginate, soil stablizer, stone chips, water absorbing soil additive into the soil to a specified depth and/or at a specified rate; submission of material samples as specified; and testing of sample by an approved laboratory and provision of Certificates of Analysis of the material where necessary.

**SCHEDULE OF RATES
FOR TERM CONTRACTS FOR BUILDING WORKS 2013 EDITION
(Architectural Services Department Hong Kong)**

CORRIGENDUM NO.1 – JANUARY 2015

VOLUME ONE – BUILDER’S WORKS (CONT’D)

Clause SC22.06 is replaced by the following:

Rates for supplying, delivering, spreading and levelling drainage aggregate, lightweight aggregate, pea gravel and gravel, laying and protecting filter layer

SC22.06 The rates for supplying, delivering, spreading and levelling drainage aggregate, lightweight aggregate, pea gravel and gravel, laying and protecting filter layer shall include for supplying, loading, and/or transporting from any locations as directed, unloading; spreading and levelling drainage aggregate or lightweight aggregate to specified depth; laying filter layer and all necessary protection; and submission of material samples as specified.

Rates for underground guying system

SC22.08 The following sub-clause is added:

The rates for underground guying systems shall also include for submission of samples and particulars of all the necessary materials of the system for the Maintenance Surveyor's approval prior to importation and use on site.

Rates for ornamental boulders

SC22.10 Replace sub-clause (b) with the following:

(b) Sourcing of the ornamental boulders per specified type and size, and provision of samples if required.

Clause SC22.18 is replaced by the following:

Rates for landscape softworks generally

SC22.18 Replace sub-clause (a) with the following:

(a) Works executed by the contractor on the List of Approved Suppliers of Materials and Specialist Contractors for Public Works for the appropriate Group of the appropriate Class under the Landscaping category.

Rates for supplying of plant materials

SC22.19 The following sub-clause is added:

The rates for supply of plant materials shall also include for provision of samples and annotated photographs of the specified species of plant materials.

**SCHEDULE OF RATES
FOR TERM CONTRACTS FOR BUILDING WORKS 2013 EDITION
(Architectural Services Department Hong Kong)**

CORRIGENDUM NO.1 – JANUARY 2015

VOLUME ONE – BUILDER’S WORKS (CONT’D)

Rates for landscape softworks – planting items

- SC22.20 Replace sub-clauses (a), (b) and (d) with the following:
- (a) Provision and application of pre-planting fertilizer to fabricated soil mix or top soil or light weight soil mix as specified.
 - (b) Setting-out and excavating planting pits for root balls, placing the plant in the pit, backfilling with fabricated soil mix or top soil or light weight soil mix.
 - (d) Provision and application of follow-up fertilizer and insect and disease control treatment, thorough watering and all necessary operations as specified for satisfactory completion of planting works.

Rates for fabricated soil mix

- SC22.22 Replace sub-clauses (a) and (c) with the following:
- (a) Testing of samples by an approved laboratory and provision of Certificates of Analysis of the fabricated soil mix.
 - (c) Replacement of fabricated soil mix which is not conforming to the Specification.

Clause SC22.23 is replaced by the following:

Rates for top soil

- SC22.23 Further to Special Conditions Clause SC22.21, the rates for top soil shall further include for:-
- (a) Testing of samples by an approved laboratory and provision of Certificates of Analysis of the top soil.
 - (b) Protection and storage of top soil.
 - (c) Replacement of top soil which is not conforming to the Specification.

Clause SC22.24 is replaced by the following:

Rates for pots / containers

- SC22.24 The rates for pots / containers shall include provision of samples if required, supplying, loading, transporting, unloading, placing in positions as directed, and removing from the Site if required the pots / containers including the associated trays.

CORRIGENDUM NO.1 – JANUARY 2015

VOLUME ONE – BUILDER’S WORKS (CONT’D)

Clause SC22.25 is replaced by the following:

Rates for ornamental plants other than Orchidaceae

- SC22.25 The rates for ornamental plants other than the Orchidaceae family shall include for:-
- (a) Supplying pots / containers with trays of different materials, in variety of shapes, colours and finishes, and in different size categories, and provision of samples of pots / containers if required.
 - (b) Provision of samples of the specified plant species if required.
 - (c) Supplying, delivering and placing the plants with appropriate planting medium in pots / containers at locations as directed.
 - (d) Removing the plants in pots / containers from the Site if required.

Clause SC22.26 is replaced by the following:

Rates for ornamental plants - Orchidaceae

- SC22.26 The rates for ornamental plants from the Orchidaceae family shall include for:-
- (a) Supplying pots / containers with trays of different materials, in variety of shapes, colours and finishes, and in different size categories, and provision of samples of pots / containers if required.
 - (b) Provision of samples of the specified plant species if required.
 - (c) Supplying, delivering and placing the plants with appropriate planting medium in pots / containers at locations as directed.
 - (d) Removing the plants in pots / containers from the Site if required.

Clause SC22.27 is replaced by the following:

Rates for artificial plants

- SC22.27 The rates for artificial plants shall include for:-
- (a) Supplying pots / containers with trays of different materials, in variety of shapes, colours and finishes, and in different size categories, and provision of samples of pots / containers if required.
 - (b) Provision of samples of the specified plant species if required.
 - (c) Supplying, delivering and placing the plants in pots / containers at locations as directed.

CORRIGENDUM NO.1 – JANUARY 2015

VOLUME ONE – BUILDER’S WORKS (CONT’D)

- (d) Removing the plants in pots / containers from the Site if required.

Rates for hydroseeding

SC22.29 The following sub-clauses (l), (m) and (n) are added:

- (l) Mobilization and demobilization of all plant and equipment necessary for the works.
- (m) Carrying out survey and checking the existing conditions before applications.
- (n) Provision of all necessary working platform.

Rates for hydro-mulching

SC22.30 Replace sub-clauses (b), (e) and (h) with the following:

- (b) Checking and carrying out survey of existing conditions and protection of prepared ground surfaces before application.
- (e) Submission of samples of materials to be used and particulars including manufacturer's catalogue and literature.
- (h) All necessary materials, equipment and operations for satisfactory germination and completion grass areas as specified.

Rates for turfing and sprigging

SC22.31 Replace sub-clause (l) with the following:

- (l) All necessary materials, equipment and operations for satisfactory germination and completion grass areas as specified.

Rates for transplanting trees

SC22.33 Replace sub-clauses (a), (d), (e), (h), (i) and (k) with the following:

- (a) Submission of method statement and programme for transplanting to the Maintenance Surveyor and obtaining his approval prior to commencement of any operations related to transplanting.
- (d) Excavating trenches for root ball preparation, root pruning to achieve the required size of root ball, maintenance of the root ball during the period of root ball preparation, and undercutting the root ball prior to lifting for transplanting.

**SCHEDULE OF RATES
FOR TERM CONTRACTS FOR BUILDING WORKS 2013 EDITION
(Architectural Services Department Hong Kong)**

CORRIGENDUM NO.1 – JANUARY 2015

VOLUME ONE – BUILDER’S WORKS (CONT’D)

- (e) Protecting the root ball by wrapping the root ball and encasing the root ball if required by materials proposed in the approved method statement, spraying with approved anti-transpiration spray if required, and keeping the whole plant moist at all time.
- (h) Provision of tree lifting, transporting of the tree from the donor site to the receptor site, provision of temporary storage of the tree at holding nursery if required, planting of the tree at the receptor site including backfilling of the tree pit, watering, mulching and all other necessary operations as specified for satisfactory completion of planting works.
- (i) Provision of supporting measures at donor site during root ball preparation prior to lifting for transplanting and at receptor site after transplanting.
- (k) Backfilling voids and making good disturbed surface at donor site.

The following sub-clause (l) is added:

- (l) Provision of a complete set of date-imprinted photographic records for each stage of the whole transplanting process.

Clause SC22.39 is replaced by the following:

Rates for Establishment Works

SC22.39 The rates for Establishment Works generally shall include for the following for the operations as specified and ordered:-

- (a) All necessary site inspections to identify the need for the implementation of the operations concerned.
- (b) Supply, loading, transportation, unloading, storage, multi-handling, and disposal of surplus of all the necessary materials.
- (c) Provision of samples, testing of samples by an approved laboratory, and provision of Certificates of Analysis of the materials if required.
- (d) Provision of method statements if required.
- (e) Implementation of the operations concerned.
- (f) Maintenance and provision of the records of the operations concerned upon completion.

**SCHEDULE OF RATES

CORRIGENDUM NO.1 – JANUARY 2015

VOLUME ONE – BUILDER’S WORKS (CONT’D)

The following Clauses are added:

Rates for supplying, delivering, spreading and levelling natural round river-washed pebbles and natural pea gravel

SC22.45 The rates for supplying, delivering, spreading and levelling natural round river-washed pebbles and natural pea gravel shall include for supplying, loading, and/or transporting from any locations as directed, unloading; spreading and levelling natural round river-washed pebbles and natural pea gravel to specified depth; and submission of material samples as specified.

Rates for supplying, delivering and installing bamboo protective fencing and plastic lattices

SC22.46 The rates for supplying, delivering and installing bamboo protective fencing and plastic lattices shall include for supplying, loading, and/or transporting from any locations as directed, unloading, excavating, multi-handling, levelling, grading, fabricating and fixing the fences and lattices with all necessary materials as specified in the required location; fixing and adjusting; and submission of material samples as specified.

Rates for supplying, delivering, laying and installing root barrier

SC22.47 The rates for supplying, delivering, laying and installing root barrier shall include for supplying, loading, and/or transporting from any locations as directed, unloading, levelling and installing root barriers as specified in the required location; and submission of material samples as specified.

Rates for supplying plant labels

SC22.48 The rates for supplying plant labels shall include for supplying and delivering the plant labels as specified and provision of material samples if required.

Rates for fixing plant labels

SC22.49 The rates for fixing plant labels shall include for mounting and installing plant labels with appropriate mounting devices as specified in the required location, and regularly inspecting, adjusting, reinstating and replacing the plant labels.

Rates for supplying of climbers

SC22.50 The rates for supplying of climbers shall also include for supplying and delivering the associated supports for the non-self-clinging climbers and submission of material samples for the supports.

Rates for supplying of aquatic plants

SC22.51 The rates for supplying of aquatic plants shall also include for supplying and delivering all the associated materials including plastic mesh containers, wire mesh cages, growing medium, supports and ballast; and submission of material samples for all the associated materials.

**SCHEDULE OF RATES

Rates for planting of climbers

SC22.52 The rates for planting of climbers shall also include for fixing the associated supports for the non-self-clinging climbers.

Rates for planting of aquatic plants

SC22.53 The rates for planting of aquatic plants shall also include for placing and fixing all the associated materials including plastic mesh containers, wire mesh cages, growing medium, supports and ballast.

Rates for tree felling

SC22.54 The rates for tree felling shall further include for:-

- (a) Fell only those trees earmarked and labeled or those as directed or approved by the Maintenance Surveyor.
- (b) Commence any work related to tree felling on the Site only after the contractor’s compliance with the requirements, such as those related to method statement, stipulated to be completed prior to commencing the tree felling work.
- (c) Take all necessary safety precautions to protect the people engaged in the tree felling work as well as the people and property in the vicinity throughout the whole process of tree felling.
- (d) Tree trunks and branches shall be removed in sections for reasons of safety and in such a manner that any potential damage to the public and adjacent utilities, services or pipes, structure, slopes or stream course vegetation is avoided.
- (e) Fell the trees by cutting them near the ground, with their stumps ground rather than pulled so that the roots of the nearby plants to be retained are not injured.
- (f) Remove the stumps and rootballs of the felled trees carefully to avoid causing damage to the roots of the nearby plants to be retained, where it is necessary to have such removal as directed by the Maintenance Surveyor.
- (g) Do not use a preserved tree as anchor when winching out a stump.
- (h) Remove all debris, wood, and roots where necessary. Burning of vegetation or any other construction debris is not permitted.
- (i) All voids formed as a result of the above works shall be backfilled with clean material as appropriate.
- (j) Report to the Maintenance Surveyor the necessity of such tree removal.

CORRIGENDUM NO.1 – JANUARY 2015

VOLUME ONE – BUILDER’S WORKS (CONT’D)

- (k) Provide all reasonable assistance as required by the Maintenance Surveyor in the tree survey and the justification for the proposed tree removal with substantiation and the necessary details such as site formation plan and architectural or engineering drawings, for the Maintenance Surveyor’s preparation of the tree felling or transplanting application for the tree removal.
- (l) Fell or transplant the trees only after the Maintenance Surveyor’s approval to the tree removal which shall normally be given only after the tree felling application has been approved by the government approving authority (Lands Department (LandsD/LCSD/AFCD)).
- (m) At the commencement of works, and concurrent with the tree protection works, Contractor shall identify and clearly mark all trees that are indicated on Contract drawing as trees to be felled. Any tree which for any reason is required to be felled during the progress of the work shall be immediately drawn to the Maintenance Surveyor’s attention and permission sought from relevant authority prior to any felling being carried out.
- (n) Unless under emergency situation agreed by the Maintenance Surveyor, the Contractor shall submit method statement on tree felling for the Maintenance Surveyor’s approval and shall commence any work related to tree felling only after the method statement has been approved in writing by the Maintenance Surveyor.

Rates for basic establishment operations

SC22.55 The rates for basic establishment operations for various types of plants / grassed areas shall further include for:-

- (a) Watering.
- (b) Control of pests and disease.
- (c) Weeding and litter removal.
- (d) Aeration and forking over.
- (e) Replacement of plants and grass with the same species and sizes where the plants or grass fail to become established or to conform to the Specification.
- (f) Firming-up and security.
- (g) Topping up of mulching.
- (h) Apply fertilizers.
- (i) Pruning and removal of dead leaves and branches.
